

Our QEHS Policy:

- Continually monitor Quality of Customer interaction, with the intent to improve our Customer's total experience;
- Place Quality, Environmental protection, Health and Safety of all employees ahead of the Company's commercial interest;
- Continuously improve performance of the QEHS system with active promotion of Quality, Resource conservation through the 3Rs (Reduce, Re-Use and Recycle), pollution prevention and a positive Safety Culture;
- Clearly define QEHS Roles and Responsibilities;
- Provide adequate QEHS training, information, instruction and facilities for employees;
- Ensure activities and processes are compliant with requirements of QEHS and other requirements;
- Raise QEHS awareness of employees as well as external interested parties like Clients, Business partners, Contractors, Vendors, Suppliers and Visitors;
- Promptly evaluate cause of noncompliance and rectify any practice not complying with this Policy, Legal and Other Requirements;
- Set QEHS objectives that are measurable and achievable in a time frame;
- Review QEHS goals and objectives when work activity, hazard, risk, aspect and impact change.
- Conducting business activities strictly in accordance with all applicable laws and regulations that prohibited bribery and corruption.
